

## LED RECESSED WALL / STEP LIGHT

### Description

This series have been outstanding lighting construction details on numerous structures worldwide. We have developed these luminaires further and perfectly adapted their structure and design to our LED technology. The extremely low maintenance requirements allow a new product concept with far easier and quicker installation. The electrical connection is now comfortably established before installation in the structure. The installed luminaire is then mounted securely in the structure or in the installation housing with mounting system.
