

LUMR16WUDL-BR01

GU10 LAMP BASED SURFACE MOUNTED WALL LIGHT FIXTURE

Description

Salana is our cast brass surface mounted wall light that can be used for both applications of outdoor and indoor. A cast brass construction designed for durability that combines the benefits of a compact downlight with the beauty and functionality of an outdoor wall light.

Salana has the feature of dimming as per order for architectural lighting purposes with GU10 phase dimmable lamps. This fixture is ideal for outdoor applications such as walls, entrances or pergola. Electric power connection is by a 220-volt internal connector block existing at the base of the light.
