

10W ROUND CEILING RECESSED LED DOWN LIGHT

Description

This waterproof recessed LED down-light allows rotation from the front of the scenes meaning even after installation still you have the chance of tilting the direction of the light source. With a high ingress protection rating (IP65) this light can be used either indoor or outdoor with a great light distribution with 3000K Color temp as an ideal fixture for most outdoor ceiling lighting designs. The outside of the light fitting (the bezel) comes in a white finish but it can be customized to black / Grey or other available colors as per order. The driver is included in the light so there is one driver per fitting. For control options, we are flexible to customize this fixture as per project requirements subjected to min quantity order.

Correlated Color Temperature (CCT)

*Other color temperatures (CCT) can be made as per order.
