

## RECESSED MINI LED UNDERWATER LIGHT

### Description

Underwater LED lights are bright, energy efficient, and attractively styled, making them perfect for virtually any underwater application. Ideal for installation in pools, spas/hot tubs, ponds, aquariums, waterfalls, water features, fountains, docks, and in marine environments. This underwater light is designed for recessed installation in a pool/water feature wall or floor. Available in a variety of colors, as well as RGB(3-in-1), which can be easily controlled via a DMX decoder/driver.

These LED underwater lights are waterproof (with an IP68 rating) and submersible. They feature a stainless steel housing and trim face and come standard with a clear glass trim.
