### Bracket Dimension

- Weatherproof nylon straps are UV resistant and will not be damaged by heat or cold.
- Ratcheting devices are sturdy and easy to secure.
- Heavy-duty brass mounting plate will not bend or break.
- Straps are easily adjusted during periodic maintenance to prevent damage to the tree.
- Two 2400 mm straps accommodate trees up to 762 mm diameter.
- Suggested for use with beam spread lights.
- 3 years warranty on mount and 1 year warranty on straps.
- No screws or hardware to damage trees.
- Straps are easily adjusted so (during maintenance checks) they can be loosened to accommodate tree growth.
